In anticipation of the upcoming school year, the Carroll County Public School Division (CCPSD) has released the 2022-2023 supply list items for elementary schools. The CCPSD has also released information about upcoming open house opportunities in local schools. The following includes details on elementary, middle and high school open houses:

**Elementary**
Carroll County Public Schools wish to announce that all elementary schools, including St. Paul school, will have Open House on Monday, August 8, from 12:00 p.m. to 6:00 p.m. This will give parents and students the opportunity to receive information about the school year, meet teachers, and tour the school the students will be attending.

Textbooks will be provided for students at no charge. An instructional consumable fee of $5.00 will be collected from all students in addition to certain curriculum area fees. School fees are payable for grades K-8 during Open House.

**Carroll County Middle School**
Carroll County Middle School Students are requested to attend Open House during the following time periods. School fees will be collected during Open House.
Friday, August 5 - 12:00 p.m. to 6:00 p.m. – 6th Grade Students
Monday, August 8 – 12:00 p.m. to 6:00 p.m. – 7th & 8th Grade Students

**Carroll County High School**
On Monday, August 8, Carroll County High School will hold Freshmen Orientation from 9:00 a.m. – 11:00 a.m. in the auditorium. All freshmen and their parents are encouraged to attend this orientation. Freshmen will receive their schedules, visit their classrooms, and meet their teachers. Students in grades 10 – 12 are invited to attend open house from 12:00 p.m. to 6:00 p.m.

School fees will be collected on the first day of school, Wednesday, August 10th, from student’s individual teachers.

Senior schedules and senior parking permits may be picked up on Tuesday, July 26th beginning at 8:00 a.m. Parking permits will be issued on a first come, first served basis.

The Division has released the following information on elementary school supply lists:

**Hillside Elementary School**
(Webpage: http://OES.ccpsd.k12.va.us/)

HOW MUCH SHOULD A BACKPACK WEIGH?

Backpacks are handy tools that carry an array of gear. Students rely on them to hold books, while hikers and campers utilize backpacks to carry items such as food and beverages that keep them safe on trails. Even office workers may turn to backpacks to carry laptops or other tools of the trade.

Backpacks are handy resources, but overstuffed backpacks may cause injury. Backpacks should only carry weight that people can handle, and there are guidelines that can help people safely utilize backpacks.

The weight of a backpack depends on the age of the person using it. Generally speaking, adults should not exceed 20 percent of total body mass when loading backpacks. That means a healthy person weighing 200 pounds should not carry more than 40 pounds in his or her backpack.

In regard to children, researchers indicate that a child’s backpack should weigh no more than 10 percent of what the student weighs. Those findings are based on a Spanish study involving 49 primary school-aged children. Therefore, if a child weighs 70 pounds, he or she should only carry up to 7 pounds in the backpack.

Individuals also should follow a few other backpack recommendations to alleviate injuries. It’s not a good idea to wear a backpack hanging from only one shoulder. A backpack should be worn on both shoulders, and ideally with a lumbar strap. This will help to prevent muscular pains by providing well-rounded support.

A backpack with wide, padded straps can minimize pressure on the shoulders, back and collarbone. Backpacks made of lightweight material will not add much additional weight to what’s being carried. Another tip is for children and adults to pack the heaviest item carried in the backpack closest to the center of the back to minimize strain.

Failure to follow guidelines may result in pain and injuries and have negative effects on balance, which may increase the risk of falls or other injuries.

Whenever possible, individuals may want to use trolley backpacks, which are on wheels. They can be dragged, alleviating the need to carry heavy loads.
